

## SPECIFICATION AMENDMENTS

**Page 1**, amend the CROSS-REFERENCE TO RELATED APPLICATION section added by the Preliminary Amendment filed with the present application on May 19, 2004, as follows:

This application is a divisional of application serial no. 09/641,023, filed August 17, 2000, now patent no. 6,820,148, which application is incorporated herein in its entirety by this reference.

**Page 2**, amend the paragraph between lines 1 and 18 to add a patent number of a referenced application, as follows:

A card that is especially adapted for these and other applications is the MultiMediaCard (“MMC”) that is only 32 millimeters long, 24 millimeters wide and 1.4 millimeters thick. The physical and electrical specifications for the MMC are given in “The MultiMediaCard System Specification” that is updated and published from time-to-time by the MultiMediaCard Association (“MMCA”) of Cupertino, California. Versions 2.11 and 2.2 of that Specification, dated June 1999 and January 2000, respectively, are expressly incorporated herein by this reference. MMC products having varying storage capacity up to 64 megabytes in a single card are currently available from SanDisk Corporation of Sunnyvale, California, assignee of the present application. These products are described in a “MultiMediaCard Product Manual,” Revision 2, dated April 2000, published by SanDisk corporation, which Manual is expressly incorporated herein by this reference. Certain aspects of the electrical operation of the MMC products are also described in co-pending patent applications of Thomas N. Toombs and Micky Holtzman, Serial Nos. 09/185,649 (now Patent No. 6,279,114) and 09/186,064, both filed November 4, 1998, and assigned to SanDisk Corporation. The physical card structure and a method of manufacturing it are described in U.S. patent no. 6,040,622, assigned to SanDisk Corporation. Both of these applications and patent are also expressly incorporated herein by this reference.
